

BOOK CREATOR

Go to [bookcreator.com](http://bookcreator.com)

Teachers: Sign in with Google  
- You'll be prompted to name your library.

Students: Sign in with a code

\* We were both added as "students" and had to change ourselves to "teachers."

### To Create A Book

- Click on **+ New Book**
- Choose your book size / shape
- Click on the "+" to add in your media.

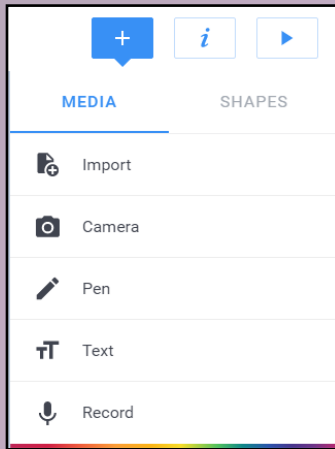

### 50 ways to use Book Creator in your classroom

#### Examples:

- Portfolios
- Class research projects
- How-to manuals with video & audio instructions
- Photo books
- Comic strips

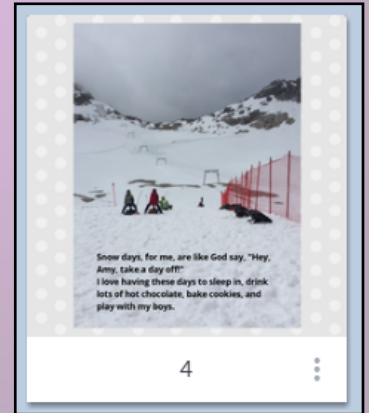

### Tools

- ◻ Add pages at the end of the book by clicking the + button.
- ◻ In "edit," click on "Pages" in the top left to see pages in a layout.
- ◻ In the layout screen, click and drag pages to re-order them.
- ◻ Click the 3 buttons in the bottom of the page to delete it

### Icons in the Top Right:

- ◻ The "+" shows the types of media you can import into your book.
- ◻ The "i" give options for adding backgrounds to pages.
- ◻ The arrow moves to presentation mode.

### Tips

- You can change your fonts. Click on your text box & then on the "i".
- You can click and drag any media into your book.
- Right click on images to crop, copy, or move them behind other boxes.

### Storing & Sharing Books

- Books are stored in your library.
- You can have up to 40 books in your library (free version).
- To share, give your code to your students.
- Once you "Join with a Code," you will see the other person's library below yours.
- Students can import books from Google Drive
