#### Question Types for Worksheets:

? Add a task

Open Question	Multiple Choice	Blanks	Fill On An Image	Matching	Table
Sorting	Draw	Text	Image	Video	Link
Embed	Discussion	Reflection			

#### Create Your Questions

- Click on the type of prompt / question you would like to use.

- Once you've created a question and clicked 'Done', you can change the point value of a question.

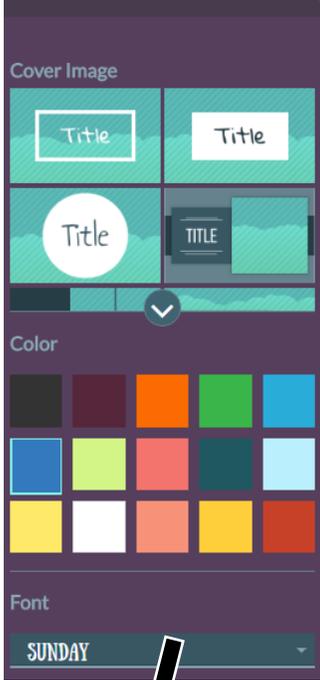

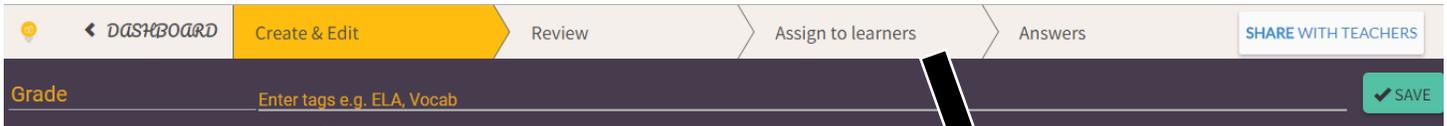

**\*\*The point value is automatically set to one (1), even if a question has multiple parts to complete.**

### Helpful Hints

- Move between "Create & Edit" and "Review" to easily see the changes you've made.
- When adding pictures, close the view tags to just see the tag without words.
- Only YouTube videos can be added.
- Clicking "cancel" at the bottom deletes the last question you added.
- You have to hover at the top of a question to see editing options

### Design Your Cover

- Choose a cover image, font style and text color for your worksheet.
- You must come back here to change your fonts, colors, and background.
- Whatever font and color you choose will be used throughout the document.

## Changing Question Order

- Click on the 3 dots at the top-right of the question.
- Hover over "Change question's order."
- Click on the question number you want to move your question to.

## Duplicating Questions

- Click on the 3 dots at the top-right of the question.
- Hover over "Duplicate question."
- Click on "With content" or "New empty question."
